

*Over a half a century of proven
Performance....*
BEHLEN

With over a half century of proven performance, the curvet by Behlen Industries LP is a standard in today's multi-use, on-farm storage. 100% steel construction, easy to assemble and expand. Their ISO certification means your product is precision manufactured every time. From equipment to crops, a Behlen building can store it all.

- Spans 40', 50', 51', 62', 68'.
- Heavy gauge roof & wall panels
- Galvanized or pre-painted.
- Equipment doors 40' x 20'
- .Man Doors 3' x 7'
- Simple to follow construction & foundation details specific to each building
- Bolt-down, formed footing channel for easy connection to foundation
- Wide range of building accessories available.
- Revolutionary die-formed footing channel
- High profile design

Capacities

Span	Max Storage Capacity (Bu.)*	Max Metric Tonnes (Wheat & Soybeans)*	Max Metric Tonnes (Corn)*
40'	47,529.00	1,293.51	1,207.30
50'	15,600.00	424.55	396.26
51'	56,534.00	1,511.37	1,410.63
62'	65,750.00	1,789.40	1,670.13
68'	83,461.67	2,271.44	2,120.04

**Capacities based on building with 4' Stemwall & 100' in length. Figures are approximate measures using a 28° slope. Metric Tonne calculations assume wheat & soybeans @ 770 kg / m³. Corn at 720 kg / m³. All maximum capacities include a 5% compaction allowance.*
